Extra Information. . .

As we are also a competition yard, we own and look after our own horses, so we understand how important it is to owners to know that their horse is being well looked after and is safe and secure whilst they cannot be there. Because of this the yard is staffed 24 hours a day, 365 days a year. Also for added security, no visitors are allowed on the yard without an appointment, and will be accompanied by a member of staff at all times. (this does not include guests of clients, they are free to come and go as they please with a clients permission). Also, for the safety of your horse, nobody under the age of 16 is allowed on the premises unless accompanied by a responsible adult.

For added security, each tack-room has it's own door with unique locks, and the whole tack area is secured with large steel security doors and decorative security bars on the windows. Currently the yard gates are secured at night once all clients have left, but in the near future, large, security code controlled, electric gates will be installed so clients can come and go as they please, without sacrificing security.
